

# Advanced Reporting

This session is for those ready for master's level reporting! It's for those confident in running and modifying reports and ready to take the next big step in report writing.

Training session participants should already have a firm foundation in reporting basics (i.e. running reports, creating queries, basic report modification tasks such as adding/editing report elements, saving reports, etc.).

- Use report functions
- Write complex expressions
- Add/edit group bands
- Add print whens
- Create variables
- Use JustDoIts and JustAfters
- Exporting data

Sign up for this training session to expand on your existing report modification skills.
